All existing safety and mooring equipment

All existing manuals, spare parts and accessories

Kuma grill with swim platform pedestal mount

This Thundercraft 260 Express is an exceptionally clean, well-maintained mid cabin express cruiser, fully equipped for weekend or extended cruising. You will be hard-pressed to find a boat in this size range with a larger mid cabin or more useful storage. Galley storage is particularly impressive with extra drawer and cabinet capacity built in below the dinette seats. A well appointed cockpit provides lots of comfortable passenger seating with easy dockside access from the gated swim platform or from either side. The Sunbrella camper enclosure is in great condition and should provide many more years of service.
