#### Broker's Comments:

The 9m Prowler Sundeck has a great layout and large salon windows creating a bright, airy cabin.

Designed by Forbes Cooper of Vancouver, Canadian-built Prowlers have a solid reputation for quality construction and are very highly regarded on the West Coast. The 12' beam provides excellent handling in rough seas and allows for a spacious interior layout with loads of storage. With two private cabins and a convertible U-shaped settee, she comfortably sleeps six. The well appointed galley is down to port and features a propane stove with oven and newer fridge. Numerous recent upgrades add huge value and cruising comfort to this well priced cruiser.

This freshwater 315 Sundeck has been professionally maintained from both a cosmetic and mechanical standpoint. She is in great overall condition and should be "top of list" if you are looking for a time-proven coastal cruiser with exceptional handling and a full suite of cruising amenities at a super price-point.
