Brokers Comments:

Introduced in 1992, the Sea Ray 300 Sundancer was built on a solid fiberglass deep-V hull with an integral swim platform and a wide 10' 6" beam. Mid cabin sleeping room measures 6' 6" and with the convertible dinette she can sleep six in comfort. The self-bailing cockpit has a raised triple-wide helm seat with great visibility and the aft cockpit area seats six on comfortable bench seats. This 300 Sundancer has the optional radar/antenna arch and features the circular dinette interior layout. A custom-fitted Genco winter cover adds significant further value. Well worth a look for buyers in the market for an entry-level family express cruiser. A 2021 survey is available for review with an accepted offer in place. Please call ahead to book a viewing appointment.
