Power-assisted steering

Dockside power inlets (dual 30-amp) and power cord

Dockside water inlet

Automatic bilge Pumps (2)

High water alarm

CO detector (cabin)

Gas fume detector

Transom mount marine BBQ (new, never used)

All existing safety & mooring equipment

Founded in 1955, Wellcraft Boats is a legendary American marine builder renowned for producing rugged, high-performance center consoles, sport-fishing boats, and iconic offshore speedboats like the famous Scarab. Over nearly seven decades, the brand has evolved from building wooden runabouts to pioneering molded fiberglass hulls designed to handle aggressive offshore conditions.

The 3000 Martinique is built on a solid fiberglass modified-V hull with a generous 10' 6" beam that allows an expansive, user friendly layout in both the cockpit and cabin. Designed to accommodate 4 adults and 2 children, the fore and aft sleeping areas are separated by privacy curtains and the mid cabin double berth converts to a comfortable seating area when not in use.

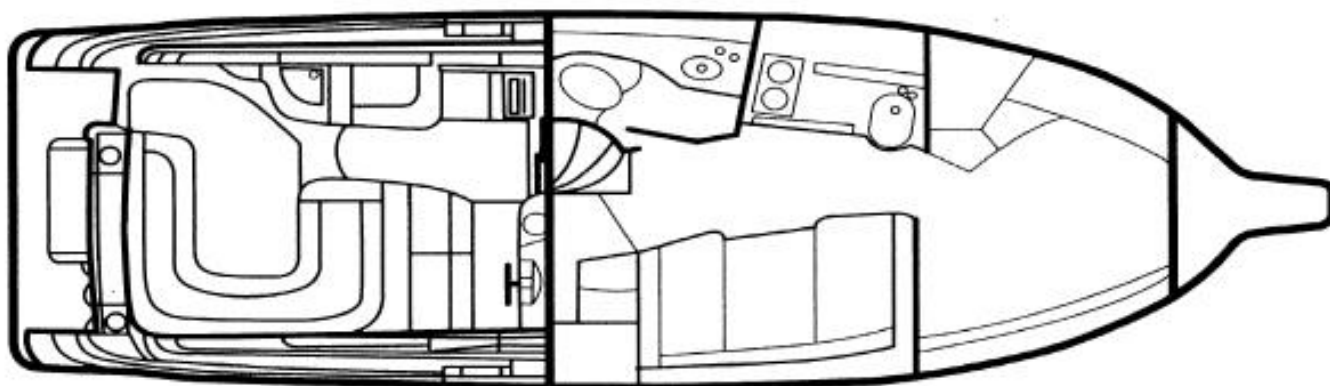

"Time Aweigh" has seen freshwater use only and has enjoyed climate controlled indoor winter storage from new. She comes equipped with all the essentials needed for comfortable family cruising, including air/heat and a full camper canvas enclosure. The twin MerCruiser engines and outdrives have been professionally maintained with the drives undergoing routine servicing in 2026, including impeller replacements and inspection of bellows, u-joints and gimbal bearings.
