Carver's 380 Santego has an expansive single-level layout that through popular demand was in production for over 10 years. This freshwater 380 Santego is very clean and comes with numerous upgrades and extras. Port and starboard molded steps at the swim platform provide seating and excellent access to the aft cockpit. The cockpit is very spacious, has a built-in bench and full height glass sliding doors into the cabin. The fly bridge offers direct access to the foredeck with a safe and convenient walk-thru feature, a full canvas enclosure, comfortable seating for 10-12 with a double-wide helm seat, passenger seat, forward bench and port and starboard lounges.

Moving below decks, the bright, roomy salon has large port and starboard wraparound settees with two portable dining tables that can be used in the salon or on the fly bridge, a full-service modern galley and a convenient wet bar counter with additional cupboard space. The galley is equipped with an updated fridge/freezer, coffee maker, built in microwave, 3-burner stove with oven and quartz countertops. There is plenty of storage and counter space. The roomy forward stateroom has an island berth, privacy door, two closets, drawer space and en-suite access to the head. The large head compartment has a separate shower stall with bench and mirrored vanity with storage above and below. Together, the forward stateroom and convertible salon sofas provide sleeping capacity for 4-5 persons, making the Santego viable as either a family cruiser, or as spacious accommodation for a couple.

This freshwater Santego has been meticulously maintained and upgraded both above and below decks. Cockpit, bridge and swim platform have been overlaid with synthetic teak flooring, and much of the original exterior upholstery has been completely re-done, and is in like-new condition. A new bridge enclosure in charcoal grey Sunbrella was installed in 2022 with Strataglass forward panels and screened side and aft panels for good views and airflow. All Interior furnishing have also been reupholstered, and a new Vitrifrigo fridge/freezer was installed in 2018. If you are not familiar with the Santego layout, you really need to come and have a look. A single level interior is rare sight in a mid-size cruiser and the expansive visual impact and enhanced livability is immediately apparent. Add in a good-size aft cockpit and a huge walk-through bridge, and you've got one heck of a nice comfortable cruiser.
