Cruisers Yachts 395 Motor Yacht features a raised side-deck design that maximizes interior space. The full beam salon has two levels of cabin windows, providing lots of natural light and great all-round visibility. With two staterooms and two heads, she easily accommodates cruising with guests or children. The forward stateroom has overlapping double and single berths while the master stateroom has a walk-around island queen. A sleeper sofa in the salon stretches capacity even further when required. The interior is a tasteful blend of cherry wood cabinetry, earth-tone carpets and faux leather upholstery. This 395 MY features the optional crescent-shaped dinette that expands salon seating and brings everyone together for socializing or enjoying the home theater system. Both heads are well appointed and have separate showers, and the forward head can be accessed from the forward stateroom or the salon. Galley conveniences include a microwave/convection oven, double sinks and plenty of storage.

Above deck, the bridge and hardtop aft deck are canvas enclosed with wing-door access to the side decks. Molded steps make access to the raised bridge and the swim platform a breeze, and the aft deck boasts a very convenient wet bar with updated refrigerator. Her covered slip berth has provided ongoing protection from the elements and as a result, decks and gel coat are in great condition. "The Boardroom" comes with upgraded batteries and charging system, solar panels and the latest Raymarine electronics. Premium woven vinyl marine flooring has been installed on the aft deck and fly bridge - a very functional, beautiful and durable upgrade as well as being highly slip and stain resistant.

Almost \$35,000 in recent upgrades!

1. Inverter, charger, remote monitor, 400 AMP Class T fuse, 6 CR430 deep cell batteries (\$13,400)
2. Raymarine navigation electronics: Axion+ GPS, Quantum Doppler Radar, VHF radio (\$8,500)
3. Premium outdoor vinyl flooring on aft deck and bridge (\$9,000)
4. Solar panels (4) on aft hardtop (\$3,500)
5. Clarion Bluetooth speakers and head unit on aft deck
6. UV shield privacy curtains on aft deck
7. LED boarding and courtesy lights
8. LED white/blue lighting on aft deck

Want to know if a boat has been well cared for over the years? We find the engine compartment is one of the best indicators, and this one is absolutely exceptional! Not only is it spotless and uncluttered, but the attention to wiring layout and equipment labeling is very impressive. Top-mounted fuel and oil filters on the Volvo engines make for easy completion of routine maintenance chores.

Overall, The Boardroom is a well equipped and very well maintained motor yacht in freshwater condition. She is a rare find with many more years of safe and comfortable cruising ahead of her.
